Lesson Days

Monday, 16-18
Aula Fib L1

Tuesday, 16-18
Aula Fib M1

Lessons will be only in presence
and will NOT be live-streamed

Registration to the course

Register to the course using the following form by September 21st

- Name(s)
- Surname(s)
- Matricola
- email address

Needed for urgent communications, to check whether rooms are adequate, and to organize the course material and practice sessions

<https://forms.gle/27fWVAZgF9AYdctw7>

Communication

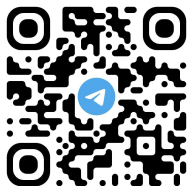

Didawiki

- Calendar & Updates
- Exam instructions

Telegram

<https://t.me/+bAA8DYcJ8Ac5ZTNk>

- Urgent communications

Email

- luca.pappalardo@isti.cnr.it
- mirco.nanni@isti.cnr.it

Receiving

- Tuesday 14:00 - 15:00
at Officine Garibaldi (first floor,
Aula Master)
- But send us an email 1-2 days
before to book a slot

Exam

Oral exam

Verification of knowledge acquired during the course (both theory and practice)

Typical duration: > 30 min, < 1h

Last year:

- 26 students
- avg grade: 26 (std 5)

Theory

- Papers
- Online tutorials
- Repositories
- Course Notes
- Slides

Course Material

will be published soon after each lesson

Insights (optional)

- Movies
- Videos
- Books
- Blog posts

Practice

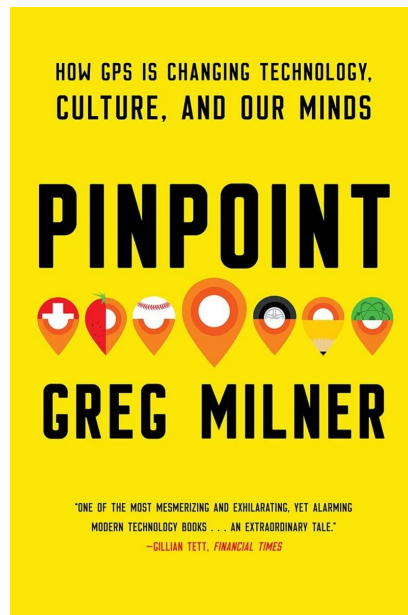

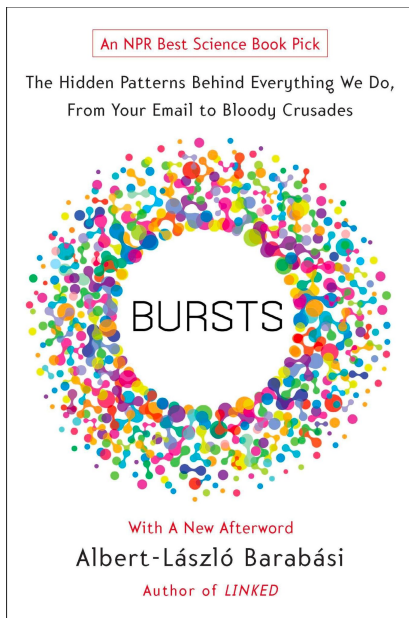

- Python libraries
- Datasets
- In-class discussions

Human Mobility Book

We are writing a *book* on Human Mobility
(covering this course' topics)

- Drafts of chapters will be released throughout the course
- They will contain all we can ask you during the exam
- Please notify any error you find or suggest material
- You will be acknowledged in the book (name and surname) if you help us improve the chapters

Divulgate Books

FAQ

Can I use ChatGPT to study the course topics?

Yes, it can help you explore topics in more depth. Always ask for references and verify them.

Is there a textbook for the course?

No single textbook. Materials include slides, notes, and draft chapters provided by the instructor.

Will there be exercises or assignments?

No. We already know ChatGPT is good in solving exercises.

FAQ

Is attendance mandatory?

No, but active participation is strongly recommended.

What will be asked in the oral exam?

Questions may cover material from slides, notes, or draft chapters. You will also solve a geospatial analytics problem by reasoning (no coding required, at most pseudocode).

What language will the exam be in?

Italian or English, according to your preference.

FAQ

Can I take the exam without attending the course?

Yes.

Will the lessons be recorded?

No, they will only be held in person.

Can I attend the course without taking the exam?

Yes.
